**POLICE HORSE PROTECTION**  
**HORSE BLANKET**  
Technical Specifications

### Product

The horse blanket gives excellent protection to the horse against thrown objects and hits in Riot control situations. The blanket also gives good protection against slashing and burning. The blanket is light weighted and flexible to ensure the movability of the horse.

There are 36 protective elements made of HDPE on the blanket. The size of each protective element is 15 cm x 12 cm. The attachment to the horse is made with 5 pcs of 50 mm wide straps: three under the horse two on the chest area.

### Sizes:

The length of the blanket is 190 cm +/- 3 cm and it is adjustable with straps. It is possible to customize the size if needed.

### Main materials used:

Outer textile	Acrylic-coated PA1000 dtex nylon 300 gr/m <sup>2</sup>
Inside textile	Acrylic-coated nylon 180 gr/m <sup>2</sup>
Foam	Cross-linked LDPE, 6 mm thick
Hard plastics	HDPE 500, 3 mm thick
