MOUNTED OFFICER PROTECTION

Elbow & Forearm 08

Technical Specifications

Article number; Ref08

Elbow and forearm guard protects the elbow and forearm area against kicks, blows and impacts. The main protection is made in two protection parts, one for the elbow one for the forearm which gives close to 360 degrees covering of the forearm. The product is to be used in Riot situations by police and military forces and prison Services. The product is designed to meet the impact protection required in VPAM KDIW from 2004 edition 2011 level W3.

NSN number; 8415-25-146-7482
